ENVIRONMENTAL POLICY - 2022

Yamba Marina is committed to the creation and management of a clean and safe work and marine environment. We are diligent in our pursuit of best practice for our operations and our legislative requirements.

It is the responsibility of every Yamba Marina customer, whether long term or short, and every employee, to work together to keep the Marina and the environment clean and safe.

Our policy is to encourage all customers to stop any form of pollution. Marina staff are actively trained to be pro-active in looking for any dangers to the waterways and the environment.

Marina guests are made aware of the marina environmental requirements on signing of the Berth and Lifting forms.

Specific requirements include;

*All works must be carried out in full accord with EPA guidelines and Local Council regulations.

*All washing and cleaning of vessels must be managed in such a way which prevents any residues or pollutants returning to the waterways.

*All work that has the potential to create dust must be screened and dust must be vacuum extracted.

*Bilge water is not to be pumped at any time in the marina

*Noise must be kept to a minimum.

*Work areas must be kept clean and tidy.

*No repairs are permitted while berthed in the floating marina.

*Garbage and rubbish must be placed in the bins provided.

*Toilets on board (with outlets) are not to be used while in the marina.

Any breakdown of marina requirements must be reported immediately to Marina Management.

Failure to abide by Marina regulations can result in heavy penalties which will be levied to rectify any environmental issue which puts the business of Yamba Marina Pty Ltd at risk.
